

ALPINE LODGE ON MOUNTAIN WILL BE BUILT

Sierra Club Constructing House
on Mount Shasta at Cost of
Four Thousand Dollars

(By Associated Press)
SISSON, Calif., June 20.—High up on Mount Shasta, an Alpine lodge is to be built this summer by the Sierra club, a mountaineering organization of San Francisco, according to an announcement here.

Already the Sierra club has lodges in the Yosemite valley, on the Tioga meadows. The Shasta lodge is to cost approximately \$4000, and will be used by members of the club and others who make the climb up the mountain.

Material for the building will be assembled here and transported by pack train up the mountain side. Erection of the lodge will be under the general supervision of the forest service.

On the building will be placed tablets which the following will be inscribed:

"Mount Shasta was discovered in 1826 by Peter Skene Ogden; in 1846 the Fremont expedition observed and passed the mountain; in 1856 Antonio Jaramila made first recorded ascent; in 1858 Jonathan Miller and party made ascent with first woman to climb mountain; in 1862 Prof. Whitney and party made ascent; in 1870 Clarence King and party explored and ascended; in 1872 John Muir explored and slept on the mountain; in 1875 Capt. Rogers coast survey, erected cyclic monument; in 1883 H. Babcock made the ascent in record time of 3 hours and 40 minutes; in 1905 the Sierra club of 50 members made the ascent."

WATERFALLS OF SCOTLAND WILL PRODUCE POWER

Grampian Electricity Bill In
House of Commons Almost
Sure of Passage

(By Associated Press)
LONDON, June 1.—(By Mail)—Scotland is waking up to the fact that its lakes and waterfalls may be made to serve other purposes than providing scenic attraction for tourists. As proof of this the "Grampian Electricity Bill" has been given a second reading in the house of commons.

The company is empowered to collect and use the waters of 15 lochs and 30 small lakes, rivers and streams over an area of 417 square miles.

The waters proposed to be utilized are estimated to be capable of generating 56,000 horsepower to supply electricity in the counties of Perth, Kinross and Forfar and districts in four other counties. The capital is placed at £500,000 pounds.

That any of the beautiful lakes and falls of "Calendonia, stern and wild" should be used to set the wheels of industry spinning many in Scotland regard almost as sacrilegious desecration. And that opinion is shared by not a few Americans who are accustomed to visit Scotland annually.

But the promoters declare that the preservation of the natural beauties of Scotland is expressly provided for by the terms of the bill. And they add that when the hum of the electrically driven wheels of industry are heard in the land, and dividend "bells" to come in, the cry of "desecration" will be silenced.

AUSTRALIA MINERS WAGES TO BE CUT

(By Associated Press)
SYDNEY, N. S. W., May 9.—(By Mail)—The colliery proprietors have decided to apply to the arbitration court for a reduction of one-third in miners' wages, according to announcement.

Rules that the proprietors will seek to have the court promulgate include six days work a week if the management requires; the hours of all surface employers shall be calculated exclusive of meal time; hours for underground contract or day laborers to be calculated as from the time the last man descends until the first man ascends in each shaft.

The miners have expressed opposition to the proposals, declaring that the companies can reduce the price of coal without reducing wages and still make a good profit. Mass meetings of the miners have been called to consider their position.

MEXICO EXPORTATION OF OIL IS ENORMOUS

(By Associated Press)
MEXICO CITY, June 4.—Oil exportations from Mexico during the year 1921 totalled approximately 195,000,000 barrels, as against 153,000,000 barrels in 1920, according to figures published recently by the department of finance. Taxes from this exportation netted the Mexican government more than 50,000,000 pesos.

HUMAN JUSTICE IN MODE LIFE IS ESSENTIAL

Michigan Governor Tells Graduates to Blaze New Trail and Lead the March

(By Associated Press)
EVANSTON, Ill., June 20.—Unless Americans learn the "way of life in human justice," they will die nationally, as miserably as the nations that have gone before. Chas. S. Oshorn, former governor of Michigan, said in a commencement address yesterday at Northwestern university. It shall be a part of your sublime task, he said, "to blaze a new trail of life and lead the march."

"Delilah did not sap the Titans' power by cutting of his hair. She danced cheek to cheek with him and seduced his will. At least the modern Samsons are undone in that way. The hair story is allegorical and true. 'The white race is predatory and ephythic. When it is not preyed upon and being supported by the blacks and browns and yellows it slashes its own vitals in unwitting social harikari for the chance to forget itself in economic cannibalism. During the last 100 years the white race, composing the recent allied powers, seized three-fourths of the area and the earth and placed two-thirds of the population in tributary slavery."

"The Genoa conference, the meeting at Washington, the council at Versailles are as those of yesterday, met in distrust and not in contrition, for safety first, not for right and justice and humanity first."

"There has been created a distinct college caste. Young people are afraid to say they have no attended a university. Too often a diploma is a social certificate rather than an indication of equipment to lead in life. The masses have a mortgage upon the life of every university graduate. The only way it can be discharged is by paying the people morally, ethically, philanthropically and physically."

PURE FOODS

Housewives that realize the value of pure foods—that take special pride in uniform and wholesome bakings, never fail to use

CALUMET BAKING POWDER

You have positive proof of the purity—contains only such ingredients as have been officially approved by the United States Pure Food Authorities.

Contains more than the ordinary leavening strength—therefore you use less. It goes farther—lasts longer. That's why it is used by more leading Chefs, Domestic Scientists, Restaurants, Hotels, Railroads than any other brand on earth.

A pound can of Calumet contains full 16 oz. Some baking powders are in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

GOLD BELT IS MAKING BETTER ORE SHOWING

Shaft Now Has Depth of Forty-Five Feet With Ten Feet of Ore Showing

The showing on the Gold Belt divide property in the Divide district continues to make an improvement and indications are favorable for a big producer being developed in due course of events. The shaft now has a depth of 45 feet and the improvement has been so marked that it is probable the scope of operations will be enlarged within the very near future.

The vein is one of the strongest and best defined to be found in the entire Divide district. That the ore shoot will be found to be persistent at good depth is generally conceded by mining men in general who have inspected the property, and the vein shows a width of 10 feet in the shaft workings, yet neither the hanging wall nor footwall is showing. At some points on surface the vein has a width of 50 feet and bannings of gold can be secured from sampling at random.

This property is to be equipped with large headframe and adequate machinery to permit of sinking to good depth and for the development of the mine on a scale commensurate with the splendid mineral showing that is now in evidence. Chas. Kellhofer, the moving spirit in the company, is giving his personal attention to the development that is now going on happily forward, and being one of the pioneer miners of the Divide he is thoroughly familiar with conditions in that section, which is an assurance that the very best results will be obtained in the development of the holdings.

U. S. DEMANDS THAT MURDERERS BE TAKEN

WASHINGTON, June 20.—The American embassy at Mexico City, Mexico, and the consulate at Tampico, were instructed by the state department today to request federal local Mexican officials to make every effort to apprehend the murderers of War Minister B. Harvey, an American, killed June 17 near Tampico.

BODY OF MEXICAN GENERAL RETURNED

(By Associated Press)
MEXICO CITY, June 4.—(By Mail)—The body of General Felipe Angeles who was shot two years ago in Chihuahua following his capture by Carranza forces, probably will be brought to Pachuca, his former home, for final interment. A movement to that effect has been started and coincident a subscription campaign to obtain funds for a suitable monument to the famous artillery expert in Mexico City.

General Angeles was one of Mexico's most illustrious military men, and during the world war achieved considerable fame in the French army as a master of artillery.

FRENCH PEOPLE MAKING USE OF U. S. LIBRARY

Thirty-Three Per Cent Of Attendance is Made Up of French Readers

(By Associated Press)
PARIS, June 4.—(By Mail)—The American library in Paris, with 30,000 American volumes on its shelves and its tables covered with American magazines and newspapers, draws 33 per cent of its reading room attendance from French people. It is rapidly becoming the chief connecting link between the literary interests of France and the United States and during the two years of its existence it has greatly stimulated French interest in things American.

At the beginning of 1922 the library funds amounted to 674,000 francs, and it is intended to spend much of this in enlarging existing facilities. A branch in the Latin quarter is planned, and others are contemplated. The library is used by French ministers, and many of the best known French literary, scientific and professional men. It receives dozens of papers a week for information about America. Recently a French architect asked for all available information about skyscrapers, and several literary men came for help in writing biographies of Henry Ford and Secretary Hughes.

CONFEDERATE VET DIES AT ALTURAS

(By Associated Press)
ALTURAS, Cal., June 20.—Joseph Black, believed to have been the last Confederate veteran of the Civil War in Modoc county, died here recently at the age of 82. Black participated in the defense of Vicksburg during the memorable siege, suffered severe wounds, was a war prisoner for many months, and was with Lee when that general surrendered to Grant.

When the Bonanza says you print, it means that and nothing else locally and by wire. \$1 a month.

The Bonanza is the best advertising medium in southern Nevada. Reason: Every line in the paper is read by a criticizing public.

No order of job printing is too large or too small for The Bonanza to fill. We employ only the most skillful and artistic printers. Prompt service assured.

Advertise in The Bonanza.

REPUBLICANS AND DEMOCRATS CAN DODGE THE STEAM ROLLER

Dear Mr. Otto Bug:

You will be much pleased with the appearance of the Dodge Brothers' touring car and Roadster since the change in the body design of these cars. Our first shipment is on the way, and due to arrive in Tonopah next week, and we suggest that you drop in and see for yourself what a decided improvement has been made.

Incidentally, if you are planning on buying a new car this summer, it would be a good idea to get in touch with us immediately. There is going to be a tremendous demand for these new cars and you know what that will mean to our delivery schedule.

Yours very truly,
